RESPONSE

Seattle, Washington 98101

May 1, 2007

TO THE COMMISSIONER FOR PATENTS:

Applicants respectfully request that the above-identified application be re-examined.

The February 22, 2007, Office Action in the above-identified application rejected all of the claims remaining in this application (1-54) under 35 U.S.C. § 103(a) as being unpatentable in view of the teachings of U.S. Patent No. 6,701,383 (Wason) in view of U.S. Patent Publication No. 2002/0112247 (Horner). As noted to Examiner O'Steen in a telephone conversation subsequent to receipt of the Office Action and more recently, Horner was filed February 8, 2002, over a year after the filing date of the above-identified application (February 2, 2001). Horner relies on an earlier-filed provisional patent application (60/267,848). Assuming for purposes of this response that the provisional application provides adequate support for the use of Horner in the foregoing rejection, applicants further point out that **the filing date of the Provisional Application No. 60/267,848 (February 9, 2001) is after the filing date of the present application (February 2, 2001)**. As a result, Horner is not a valid reference. Consequently, applicants respectfully request that the rejection of Claims 1-54 based on the teachings of Wason and Horner be withdrawn and this application allowed.
